REMARKS

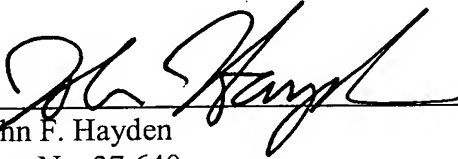

Claims 10-117 are pending in this application with claims 10, 16, 22, 28, 34, 40, 64, 70, 76, 82, 88 and 94 being independent. Claims 1-9 were previously canceled and claims 64-117 have been added. Claims 64-117 correspond to previously-allowed claims 10-63, with the difference between the claims being that, while independent claims 10, 16, 22, 28, 34 and 40 recite that "the first wiring line is formed on a same layer as a gate electrode of a thin film transistor," independent claims 64, 70, 76, 82, 88 and 94 recite that "the first wiring line is formed from a same conductive layer as a gate electrode of a thin film transistor." Support for this difference may be found in the application at, for example, page 11, lines 23-29. No new matter has been introduced.

Applicant acknowledges with appreciation the Examiner's allowance of claims 10-63 and submits that claims 64-117 are also allowable.

Enclosed is a \$4690 check (\$3900 for excess claim fees and \$790 for the RCE fee). Please apply any other charges or credits to deposit account 06-1050.

Respectfully submitted,
